

## Western Trip Clothing and Gear List

**TIPS ON PACKING:** Campers are allowed only ONE duffel bag (size 26" x 42") Everything - with the exception of your sleeping bag, sleeping pad, pillow, light blanket and any items kept in your daypack - must fit into your duffel bag. You can best organize your duffel by compartmentalizing your clothing. Group similar clothes, such as t-shirts, and place them into plastic bags. Feel free to use bags you have around the house instead of buying new bags. The plastic bags will serve a dual purpose; to help you keep your clothes sorted and easy to reach, and as added protection against moisture and accidental spilling.

**TIPS ON IMPORTANT GEAR:**

**SLEEPING BAG:** You will need a good summer bag with synthetic fill. No goose down or cotton filled bags are allowed. Synthetic will work well when wet and is less expensive than goose down bags. We recommend a synthetic, 20-degree bag.

**HIKING BOOTS:** Boots should extend over the ankle for support. The upper portion should be made of nylon or leather and should have the capacity to become waterproofed. The boot **should be worn for at least 6 weeks before the trip in order to prevent blisters.** They should be waterproofed before the trip.

**RAIN GEAR:** A good rain suit is essential and should include rain pants and a jacket with a hood.

Mark all clothing with indelible ink. Campers will have the opportunity to do laundry on the trip. We recommend wrinkle-resistant clothing that dries quickly. "Good" clothes are not recommended.

# Western Trip Clothing and Gear List
